

warranty with wider scope

HIAIS offers a breakthrough in home warranty insurance for kitchens and bathrooms, with premiums from only \$169* per project.

With many kitchen and bathroom renovations nowadays exceeding the \$12,000 threshold, builders are legally required to provide home warranty insurance to customers. Previously, this has been a very costly and time-consuming process.

Greg Donovan, managing director of HIA Insurance Services (HIAIS) says HIA members have commented that the cost of home warranty insurance does not reflect the risk and scope of non-structural works such as kitchens and bathrooms.

‘So with this feedback,’ he says, ‘we have negotiated with numerous home warranty insurers to develop a home improvement warranty product which is both cost effective and easily accessible. The result is the development of an exciting new product, Kitchen and Bathroom Home Warranty, which can be purchased separately or bundled with other insurance products, and is offered exclusively by HIA Insurance Services.’

HIAIS has negotiated with insurers on your behalf to offer an exclusive policy for non- structural works (such as kitchens and bathrooms) which is both cost effective and easily accessible. Importantly, this product covers not only

kitchen and bathroom works, but also other minor works such as steel sheds, carports, decks and pergolas.

To apply, follow these simple steps:

1. Log-on to www.hiainsurance.com.au and apply for kitchen and bathroom warranty insurance by completing the Eligibility Form.
2. Once approved you will be able to submit Project Forms (downloadable from www.hiainsurance.com.au) to receive a policy certificate for each project.

* \$169 per project for more than 50 certificates per year. \$209 per project for between 20 and 50 certificates per year. \$229 per project for less than 20 certificates per year.

3. Alternatively, contact your local HIA Insurance Services office for a competitive quote. 

Your insurance broker

HIA Insurance Services is the building industry's 'one-stop insurance shop'. From insurance for your tools and equipment to public and products liability – we've got the cover you need.

This month we are thrilled to offer builders an innovative, yet simple and affordable solution for kitchen and bathroom warranty insurance. Contact us today to find out how we're working hard to save you money.
